STATE WATER PROJECT OPERATIONS DATA

For the month of:

**June
2008**

Edmund G. Brown Jr.
Governor
State of California

John Laird
Secretary for Resources
The Resources Agency

Mark Cowin
Director
Department of Water Resources

This monthly report of operational data for the State Water Project has been published since January 1965. Monthly SWP Operations Data Reports from January 1990 have been made available on the Internet at <http://www.water.ca.gov/swp/operationscontrol/projectwide.cfm>. It provides the State Water Service Contractors, public agencies, consultants and others with the daily and monthly status of the Project's water and power operations.

Revisions to these data will appear in the Annual Report of Operations reflecting corrections made after the monthly summaries have been printed.

Printed copies of these reports may be available for a fee.
For details, please contact

State of California
Department of Water Resources
P.O. Box 942836
Sacramento, CA 94236-0001

Or call the DWR Publications Desk at (916) 653-1097

Please direct questions and comments regarding the contents of this report to the Operations Records and Reports Section at (916) 574-2672. Additions or deletions to the current mailing list can be made by calling the Mailing List Coordinator at (916) 653-0995.

38	Southern Field Division Energy Data	43

MONTHLY HIGHLIGHTS

The following highlights are activities or actions that impacted State Water Project operations during the month of June 2008.

Statewide precipitation was about 85 percent of average for the 2007 - 2008 water-year through June 30. Statewide runoff was 60 percent of average for the water year. Precipitation percentages are used in this report to express historical and regional comparisons. Additional and more specific information is available via the internet at: "http://cdec.water.ca.gov/snow_rain.html".

Snowpack and runoff data are compiled four times a year, for the months of January, February, March, and April, by the California Department of Water Resources in Bulletin 120. The Bulletin also contains forecasts of the volume of seasonal runoff from the state's major watersheds, summaries of precipitation, and reservoir storages in various regions of the State.

Statewide reservoir storage was 75% of average to date. Total storage in major SWP reservoirs at the end of June 2008 was about 2.64 maf, compared with about 3.55 maf at this time in 2007. On June 30, 2008, end-of-month storage at Lake Oroville was about 1.52 maf, as compared to 2.64 maf at this time in 2007. The State share of San Luis Reservoir's end-of-month storage was about 517 taf, as compared with 336 taf at this time in 2007. The combined storage in SWP's southern reservoirs was about 598 taf, compared with about 568 taf at this time in 2007.

SWP water deliveries to date through June 2008 were about 1.43 maf. This is a combination of project, transfer, and exchange waters. Total deliveries through this same period in 2007 were 2.43 maf.

The Coordinated Operations Agreement (COA) remained in "Balanced" conditions throughout the end of 2008.

On June 11, CDWR received a Remedial Action Scheme (RAS) trip from Pacific Gas & Electric. Dos Amigos, Buena Vista, Teerink, Chrisman, Edmonston, and Pearblossom Pumping Plants were tripped off line rejecting 515 MWh of load. Banks Pumping Plant also received RAS trip and was forced out of service. RAS trip was due to Round Mountain-Table Mountain 500 kV lines relayed due to fire under lines.

1/ Negative values may appear in SWP columns and indicate a mismatch of scheduled CVP energy and actual pumping;
adjustments to SWP water shares are made to balance the mismatch.

2/ Provisional, subject to change.

1/ San Gabriel Valley Municipality Water District Table A Exchange

2/ Kern Water Bank Recovery

3/ Includes 592 AF of Tulare Lake Basin WSD Table A delivered through Dudley Ridge T.O. DR2 & 1,647 AF of San Gabriel Valley Municipality

4/ Recovery that was pumped in and stored in O'Neill.

5/ Same land owner transfer Dudley Ridge WD to Kern County WA.

6/ Includes 2,188 AF of recovery that was pumped in and stored in O'Neill and 770 AF of recovery of same contractor's pump-in.

7/ Recovery of same contractor's pump-in.

1/ Project water delivered from Mojave Siphon in exchange for like amount of natural stream flow.

2/ San Gabriel Valley Municipal Water District's stored 2005 Table A water transferred to Crestline Lake Arrowhead WA.

3/ Includes 1,813 AF to San Gabriel Valley MWD, 1,963 AF to San Bernardino Valley MWD, and 450 AF to San Gorgonio Pass WA.

1/ Negative values may appear in SWP columns and indicate a mismatch of scheduled CVP energy and actual pumping; adjustments to SWP water shares are made to balance the mismatch.
